

JUNE 5 - 7 2026

555 US 20., NEW LEBANON, NY 12125

## Night Lights in New Lebanon

Held on a quiet rural property in New Lebanon, NY, on the Saturday of Labor Day Weekend, Night Lights is a free lighting festival that transforms nature into an open-air gallery through the creative brilliance of lighting designers from across the country.

From dusk onward, visitors explore stunning light art installations crafted by over 30 designers representing award-winning firms from Boston, Chicago, DC, New York, Portland, and beyond.

**This year we are offering an exciting opportunity for Emerging Professionals to become engaged and educated on the lighting design, power, and controls process of building this incredible event.**

Participating EPs will team with seasoned lighting professionals for:

- design discussions on exterior lighting and use of color
- hands-on exposure to wiring and controls
- learning the process of event organization
- creating YOUR own mini-Night Lights during the evening
- and to earn CEUs!
